

Credentials for Learners

(New Information)

To certify that a Learner has completed the courses developed by the Job Safety Skills Society, the Society will, upon request from the school, issue either Credential A or Credential B to learners who complete, **with a mark of 70% or better**, the Learner Outcomes specified for each of the following credentials:

Credential A: Certificate of JobSafe Competency

This credential which includes a frameable certificate and wallet-sized JobSafe Competency Card is issued to each learner completing **all of the learning outcomes specified for one or more of the Job Safety Skills courses** (CTR 1210, CTR 2210, CTR 3210) with a mark, determined by the Instructor, of 70% or better.

Both the Certificate of JobSafe Competency and the JobSafe Competency Card are signed by the President & CEO of the Workers' Compensation Board of Alberta and by the Director of Workplace Health & Safety for the Province of Alberta.

Credential B: Certificate of JobSafe Knowledge
